AND INNOVATION STRATEGIES

Climate change, water cycles and  
ecosystems

Industry, produced water and treatment  
solutions

Quality of life, health and leadership

Heritage, diplomacy and the future

## The Future of -

## Water and Humanity

With water of central importance to life on earth, crafting joint solutions in response to shared outstanding challenges is essential for us all. The upcoming conference, to take place on 08-09 December, 2021 in Muscat, Oman, brings together experts, decision makers, stakeholders and resource persons from across Oman, the Middle East, and the wider world, with deep involvement in tackling the issues at hand. It aims at realizing untapped opportunities and advances substantive collaboration under four main themes:
